

Access to healthcare (including Investment in health systems)

Targets

People reached¹

2025 target

Reach 50 million people (cumulatively) through Healthy Heart Africa, Young Health Programme (YHP), Healthy Lung and Phakamisa programmes.

2020 update

More than 25 million people reached (cumulatively) through Healthy Heart Africa, YHP, Phakamisa and Healthy Lung programmes. This target has been modified to double the people reached and now encompasses four Access to healthcare programmes.

Status: On plan

Healthcare workers trained¹

2025 target

Train 170,000 healthcare workers (cumulatively) to strengthen health systems throughout the world through our Healthy Heart Africa, Healthy Lung, Phakamisa programmes and Young Health Programme.

2020 update

More than 132,000 healthcare workers trained (cumulatively). The previous target of 75,000 was achieved in 2019.

Status: On plan

Highlights

People reached by Access to healthcare programmes (cumulative)

Healthcare workers trained (cumulative)

Greenhouse gas reduction

Targets

Scope 3 value chain

2025 target
Reduce Scope 3 intensity by 25% from 2015 to 2025.

2020 update
The launch of our Ambition Zero Carbon 2030 carbon negative goal supersedes this target.

Status: On plan

Primary data for Scope 3 reporting

2025 target
Increase the share of primary activity data in our Scope 3 reporting.

2020 update
Reduction to 16% Scope 3 primary data, from 20% in 2019.

Status: On plan

Next-generation inhaler

2025 target
Launch a next-generation inhaler to treat asthma and Chronic Obstructive Pulmonary Disease (COPD) with near zero Global Warming Potential (GWP) propellant.

2020 update
We progressed a project spanning all key functions in the business to investigate alternative low-GWP propellant options from an environmental, technical, regulatory, medical, non-clinical and commercial viewpoint.

Status: On plan

Highlights

Scope 3 intensity (tCO₂e per million USD of revenue)

Primary data (Scope 3)

2025 target:
launch next-generation inhaler

KPIs

Scope 3 categories (tCO ₂ e)	2015 baseline	2018	2019	2020	2020 primary data
Category 1 - Purchased goods and services ⁷	5,853,811	4,555,560	4,933,826	5,767,108	0%

Responsible supply chain

Targets

Positive Sourcing Programme¹⁴

2025 target

Embed sustainability into our end-to-end procurement processes through our Positive Sourcing Programme.

2020 update

Global Standard Expectation of Third Parties updated to incorporate our sustainability priorities in line with the PSCI principles.

Sustainability has been included as a required component of all category strategies.¹⁵

Sustainability assessment platform EcoVadis was piloted across multiple categories, planned to be implemented enterprise wide.

Status: On plan

Sustainability Partner Guide and Framework¹⁶

2025 target

75% of all critical manufacturing partner sites are rated 'bronze' or better in our Sustainability Partner Guide and Framework.

2020 update

64% (67 of 105 supplier sites) of critical manufacturing partners achieved 'bronze' or better in our Sustainability Partner Guide and Framework.

Status: On plan

Highlights

Piloted sustainability assessment platform EcoVadis

Overall Sustainability Partner Guide and Framework performance

KPIs

Responsible supply chain	SDG	2018	2019	2020
Total supplier assessments ¹⁷	8.8	12,967	15,519	16,197
